PERSONAL PROFILE

A motivated and detail-oriented Applied Statistics graduate with strong analytical, technical, and problem-solving abilities. Passionate about transforming data into actionable insights through advanced analysis, visualization, and predictive modeling. Demonstrates a methodical and customer-focused approach to work, excellent teamwork, and a commitment to delivering data-driven solutions. Seeking opportunities to apply analytical expertise in data analysis, research, and business intelligence roles.

ACHIEVEMENTS

• Participated in the Student Science and Engineering Fair and was awarded for outstanding performance.
• Successfully completed practical tasks in data cleaning, modeling, visualization, and client presentation.
• Served as a Junior Planner at the State Department of Petroleum, contributing to strategic and performance reports.

EDUCATION

BSc. Applied Statistics with Computing
Rongo University | 2020 – 2024
Second Class Honors, Upper Division
Relevant Modules: Data Analytics & Visualization (90%), Mathematical Statistics (67%), Applied Time Series Analysis (85%), Statistical Computing (63%), Computing Methods & Data Analysis (61%), Operations Research (68%)

Kenya Certificate of Secondary Education (C+)
Thurdibuoro Secondary School | 2016 – 2019

PROFESSIONAL EXPERIENCE

Coding and Robotics Tutor | Brookshine Schools | Nov 2025 – To date
Responsibilities and Achievements.
• Prepared and taught structured coding and robotics lessons aligned with CBE curriculum.
• Guided students in building and programming robotics projects.
• Evaluated learners through practical projects and class exercises.

Brand Ambassador / Sales Support | Peach Cars | Jul 2025 – Nov 2025
Responsibilities and Achievements.
• Promoted vehicle brands and supported sales activities through customer engagement.
• Assisted clients with inquiries, bookings, and product information.
• Represented the brand at events, activations, and online platforms.

Data Analyst Trainee(Remotely) | Future Interns (Remote) | Apr 2025 – Jun 2025
Responsibilities and Achievements.
• Analyzed social media data to identify trending topics and user interests.
• Examined customer support tickets to uncover recurring issues and improve response efficiency.
• Processed accident data to identify high-risk locations, causes, and safety trends.

Data Analyst Intern | Treasure Communications Ltd | Jan 2025 – Apr 2025

Responsibilities and Achievements.

• Collected, cleaned, and analyzed marketing and customer datasets to support business decision-making.
• Prepared analytical reports and summaries to track campaign performance and customer engagement.
• Supported data-driven strategy development through insights and trend analysis.

Data Analytics & Visualization Simulation(Virtual) | Forage | Jul 2024 – Aug 2024

Responsibilities and Achievements.

• Conducted data cleaning, modeling, and visualization projects using real-world datasets.
• Presented findings and recommendations through data storytelling and dashboards.

Sales Assistant | Carman Autos Limited | Jul 2024 – Nov 2024

Responsibilities and Achievements.

• Assisted customers in selecting suitable vehicles and managed booking and documentation.
• Ensured customer satisfaction through excellent service and product knowledge.
• Assisted in receiving and releasing log books to prospective customers.

Industrial Attachment | State Department of Petroleum | May 2023 – Sep 2023

Responsibilities and Achievements.

• Participated in preparing departmental performance contracts and budget reports.
• Assisted in developing the ministerial strategic plan and program-based budget.
• Compiled fourth quarter controller of budget report.

Data Collection Agent | Twiga Foods Limited | May 2022 – Jan 2023

Responsibilities and Achievements.

• Collected reliable information on quantities to support business decisions and performance tracking.
• Achieved daily targets by visiting over 40 vendors per day.
• Documented challenges faced and insights gathered during field visits.

PROJECTS

House Price Prediction Site – Nairobi Metropolitan Area

Developed a machine learning regression model using Python and Scikit-learn to predict housing prices based on location, size, and amenities.

Social Media Engagement Analysis & Performance Dashboard

Used post-level engagement data across multiple platforms (Facebook, Instagram, Twitter) to build an interactive analytics dashboard that identifies top-performing content types, optimal posting times, and sentiment impact on audience engagement for data-driven social media strategy.

Regression Analysis on the Extraneous Factors Affecting Student Academic Performance

Build a regression model using R, Python, and SPSS to predict student academic performance based on gender, year of study, parental level of education, lunch program, and test preparation formulas.

SKILLS

Python, R, SQL | Power BI, Tableau, SPSS | Data Cleaning & Statistical Analysis | Predictive Modeling | Web Scraping, NLP, Sentiment Analysis | Microsoft Excel (Advanced), Word, PowerPoint | Excellent Communication Skills | Teamwork and Collaboration.

CERTIFICATIONS

Google Data Analytics Certificate – Coursera
Certificate in Data Analytics Training – DataBreed Africa & ICT
Data Analytics & Visualization Simulation – Forage
